SPAIN MUST CRUSH CUBA

Into Submission, or Submit to International Interference—N. P. Receivers Appointed.

Dispute Over Defender's Mascotte—Sailors' Narrow Escape—Dunraven Goes Home.

Chicago, Sept. 28.—A special from Washington says: Spain must crush the Cuban rebellion during the next three months or submit to international interference in the interests of humanity and commerce. That is the outcome of a series of conferences just held between Secretary Olney and the Spanish minister, Senor Dupy de Lome.

Milwaukee, Wis., Sept. 28.—E. W. McHenry, of St. Paul, chief engineer of the Northern Pacific, and Frank G. Bigelow, banker, of this city, have been appointed receivers of the Northern Pacific road by Judge Jenkins to-day.

Sault Ste. Marie, Mich., Sept. 28.—The steamer E. C. Pope arrived here with the crew of the schooner C. A. King, of Detroit, who had been picked up off Point Au Barques, after their boat foundered. The crew consisted of Capt. James Glenn, four men and a woman. The C. A. King was bound from Toledo to Bay City, with coal, and encountered a northwester on Lake Huron yesterday afternoon. The water poured into her hold, and the pumps were choked with coal so that the water could not be kept down. For two hours Capt. Smith stood by and finally succeeded in getting the King's crew out of their yawl. Capt. Glenn had recently purchased the King, and had no insurance on her.

Providence, R. I., Sept. 28.—There is a controversy between C. Oliver Iselin, of the Defender syndicate, and Paul Baptiste, a French chef, of this city, over the yellow dog which served as the Defender's mascot. Baptiste alleges that the dog was stolen from him by a Bristol man who at first tried to buy the animal, and, after being refused, got it by other means. After the races, Baptiste wrote Mr. Iselin, demanding the canine and a sum of money as damages. Mr. Iselin replied by asking for a description of the dog. The chef complied with the request, but the description did not altogether satisfy Mr. Iselin, for he again wrote asking for a more exhaustive description, particularly of the left hind leg of the dog, which it was claimed bears a peculiar mark. Baptiste has done this and is now awaiting Mr. Iselin's further action in the matter.

Woonsocket, R. I., Sept. 28.—The River Spinner Co.'s big mill in this city is burning; the loss will probably exceed $50,000.

Newport, R. I., Sept. 28.—The Valhalla has sailed for England with Earl Dunraven on board as the owner's guest.

Washington, D. C., Sept. 28.—Minister Denby cabled the state department today from Pekin as follows: "I have telegraphed to the authorities at Chihli Shansi and Shensi to appoint an officer to escort the commission. An edict will issue in a few days punishing the officials and degrading the viceroy."

This message refers to the independent American commission which has been formed for investigating the Cheng Tu affair, and the viceroy concerned. It is expected the commission, headed by U. S. Consul Reade, will be on the road for Tientsin and Cheng Tu in a few days.

West Superior, Wis., Sept. 28.—At 5:30 this morning fire was discovered in the cupola of the Daisy Mill elevator, located in the centre of the east end group of mills. Although the entire fire department responded promptly, the elevator is a total loss. The structure is the finest mill elevator in the northwest. It contained 80,000 bushels of wheat, which are a total loss, amounting to $100,000, covered by insurance.

SUGAR TAKES ANOTHER JUMP.

Libel Case Against Toronto Telegram—Big Lumber Deal.

Montreal, Sept. 28.—Local refiners have again advanced the price of refined sugar, this time 1-16c.; granulated sugar is now quoted at 4 1-16c., and yellows 3 1-16c. to 3 3-4c., according to quality.

Quebec, Sept. 28.—Lieut.-Col. Wilson, R. C. A., has instituted an action for $10,000 damages against the Toronto Telegram, for alleged libellous statements published in that journal anent the colonel's recent visit to England.

The Allan liner Austrian passed Father Point inward at midnight with most of the crew of the stranded Dominion liner Mariposa on board. The saloon passengers were taken off by the Allan liner Sardinian, outward bound. The Mariposa is in a bad position and is full of water. Pirates had made their appearance and were commencing to loot the steamer's cargo, when H. M. S. Buzzard appeared and drove them off. This is the third ship lost on the St. Lawrence route this season.

Klock Bros., lumber merchants, of Mattawa, have completed arrangements for the purchase of a block of 150 miles of timber limits on the upper Ottawa, belonging to Charlebois, contractor, of this city. The price paid was over $100,000.

St. Thomas, Sept. 28.—Bloom's saw mill at Homesdale, on the St. Clair branch of the Michigan Central, was burned, with a large quantity of lumber and three Michigan Central cars, last night.

Herman Pettit, of Pettit Bros.' stove works near here, was caught in the machinery and carried into a mass of pulleys and belts this morning. A plank struck him in the abdomen. His head is frightfully cut and he may die.

Whitby, Ont., Sept. 28.—The South Ontario Conservative Association are taking steps to urge the appointment of William Smith, M. P., as minister of agriculture in the Bowell cabinet.

Toronto, Sept. 28.—Jos. Fallowfield, of Brampton, a laborer in almost destitute circumstances, with a wife and five small children, received a cable from London telling him that his uncle had died and left him $250,000.

Kingston, Sept. 28.—The government has set the date for the election to fill the vacancy caused by the unseating of Mr. Harty, for Oct. 15. Mr. Harty will again be the Liberal candidate.

Captain Gaudet of A battery has been appointed superintendent of the new cartridge factory at Quebec, vice Prevost, deceased.

Halifax, N. S., Sept. 28.—Steamer Silvia, with Lieut. Peary and the Arctic expedition on board, has arrived here.

FORMAL CHALLENGE SENT

For the America's Cup Next Year—Canadian Athletics.

Ryde, Sept. 28.—At the meeting of the Royal Yacht club assembled to-day there were twelve members of the sailing committee present and the meeting was in all respects harmonious. The previous action of the club was unanimously endorsed, and Secretary Thellusson was ordered to send a letter to Mr. Oddie, secretary of the New York Yacht Club, to-day repeating the challenge, giving the name, rig and length of load water line of the challenger. Beyond this the letter contains nothing of importance. The members present at the meeting showed no desire to impose any condition whatever on the New York Yacht Club, but were willing to await the receipt of the views of the latter club as to when and where the races shall be sailed.

Toronto, Sept. 28.—Secretary Higginbotham, of the Canadian Amateur Athletic Association, has received several entries of prominent athletes from all parts of the continent for the Canadian championship tournament on October 5. To-day he received the entry of C. H. Bens, New Jersey Athletic Club, the man who holds the three mile championship of America, and J. N. Humphrey, of Moncton, N. B., one of the best runners in Eastern Canada, has entered for the two mile event. The secretary has also received entries from the following Englishmen who competed at Manhattan Field: Bradley, Shaw, Wilkins, Stevenson and Williams. It is expected that some of the New York Athletic Club will also be present.

BRITISH CONSUL INSULTED

By Chinese Soldiers — Missionary Rioters Unlawfully Released by the Officials.

Germany Takes a Hand—Attempted Assassination of Japan's Premier.

Hong Kong, Sept. 28.—The inquiry by foreign consuls at Ku Cheng into the massacre is still being kept up by the Chinese officials. Forty men, suspected of complicity in the riots, will be liberated by the local authorities without the consent of the consuls. Mr. Mansfield the British consul at Ku Cheng, has been insulted by the Chinese soldiers. The consuls are considering the advisability of returning to Foo Chow, and referring the whole matter to their respective governments.

Berlin, Sept. 28.—The Nord Deutsche Allgemein Zeitung says the German men-of-war in far east waters have been ordered to Swatow and Chee Foo to protect foreigners in these places.

London, Sept. 28.—A dispatch to the Globe from Brussels says a Frenchman named Virgile Martin, shot an actress named Augusta Dentrot, who was formerly his mistress, in Coulisse of Scala theatre. The woman received two dangerous wounds from which she is not likely to recover.

An informal cabinet council will be held about October 15th.

Lord Rosebery on October 16th, will make a speech at Scarboro, and it is expected he will then outline the Liberal party's position. The Marquis of Salisbury speaks at Watford October 30th.

Sir George O. Trevelyn, Mr. G. N. Curzon, under foreign secretary; Mr. W. St. John Broderick, under secretary of war, and a number of others are announced to appear in the arena befor the end of October. The Marquis of Salisbury has promised the leading Irish Unionists that he will visit Dublin and South Ireland in July next, if business will permit. Obviously the proposed tour is part of the government's conciliatory policy. Mr. Horace Curzon Plunkett, who accompanied Mr. Gerald Balfour on his recent tour in Ireland, and who is now recognized as the adviser of the Chief Secretary, has developed a scheme for the establishment of an Irish board of agriculture, which is certain to lead to the formation of other special Irish departments.

Yokohama, Sept. 28.—An attempt was made to-day on the life of Marquis Ito, prime minister and president of the executive council of Japan. The would-be assassin, who is a member of an anti-foreign league, has been arrested.

Ottawa News.

Ottawa, Sept. 28.—A report has been sent out from here that the government admits that truth of the report that British sealers were carrying fire-arms while in Behring sea. This is absolutely incorrect; the Fisheries department have made no statement on the subject, nor have they any statements to make.

THE LORDS TO BE REFORMED

Even the Tories Have Concluded That the Upper House Needs Cleaning.

Australia's Antarctic Search—Ships Over-due—French and German Espionage.

London, Sept. 28.—An editorial in the Graphic this morning on the reform of the House of Lords, says: "It is essential that the number of hereditary peers now sitting in the Lords should be reduced by applying the elective principle employed in the cases of the Scotch and Irish peers. The Earl of Dunraven and other independent Unionists are known to favor this. Its application would purge the Lords of a few of the black sheep who give occasion to the enemy to scoff, and would at the same time allow the peers who are inactive in the work of parliament to be replaced by representatives of great municipal, commercial and learned institutions, and possibly would allow the introduction into the sovereign parliament of the empire of representatives from great communities across the sea who bear allegiance to the queen, but who have no voice in the control of the government.

Responding to a toast to the House of Lords, at a banquet given at Ripon to-night, the Marquis of Londonderry said that he thought the House of Lords could be improved in many ways, and he hoped that the Unionists would grapple with the question. The House of Lords might hereafter have to oppose the House of Commons in measures not so unpopular as the home rule measure. Therefore, he wished it to be so strong that no stone could be cast at its action.

A dispatch from Shanghai, which the Times published to-day, says that the British cruiser Aeolus is en route to Wu-chang, in the province of Hoo Po, with more war supplies, and will enter the Yang Tse Kiang to-morrow.

A correspondent of the Whitehall Review asserts that he saw William Henry Hulburt at Nice last week. A dispatch to the Times published on the 7th, said William H. Hulburt had died at Cadenabbia Italy. His obituary was published in the principal journals in the world, printed in the English language.

The Times publishes a dispatch from Melbourne, which says that Hon. Geo. Houston Reid, premier of the colony of New South Wales, is securing the co-operation of the other colonies in the raising of funds for an Antarctic expedition.

The British ship Star of Australia, Capt. Russell, from Santa Rosalia, March 25, for Swansea and Falmouth, and the British ship Lord Spencer, Capt. Leahy, from San Francisco, April 9, for Queenstown, are long overdue at their respective ports of destination, and have been given up for lost.

Paris, Sept. 28.—The Echo de Paris says that reinforcements from the Island of Reunion will join the column which will be sent to relieve General Duchesne's troops in Madagascar, after the French troops under that officer have occupied Antananarivo.

Leipsic, Sept. 28.—The Gericht Zeitung says that as a result of the arrest of a Frenchman and a German woman at Cologne, four Germans have been arrested at Essen, Magleburg and Berlin, all connected with an extensive system of espionage, promoted by the French, with the object of obtaining drawings of the defence works.

Amsterdam, Sept. 28.—Ten thousand diamond cutters struck work here to-day upon the refusal of the employers to adopt the conditions upon which the cutters' trade union insists.

Rome, Sept. 28.—The Voce Della Verita says that the letters and telegrams of sympathy received by the Pope on the occasion of the recent Italian fetes commemorative of the entry of King Victor Emanuel into Rome, contained over a million signatures.

Madrid, Sept. 28.—The crew of the gun boat Marquis del Duro have defeated the rebels in the Island of Tatan, and have killed eighteen of them. Others were taken to Manilla and tried, and seven of them were shot.

In the Seine assizes to-day, a verdict of acquittal was given in the case of Mrs. Boulton, who on May 11th shot M. Clauser, sub-director of the Russian Bank in Paris.

MURDER AT TRAIL CREEK.

Morris O'Connor, A Prospector, Kills B. Cook, a Mining Expert.

Denver, Sept. 28.—A special to the News from Spokane says: Passengers down from Trail Creek report a horrible crime at that mining camp. Morris O'Connor, a prospector, owning several claims, took a mining expert named B. Cook to look at them. He and Cook camped out on a mountain, and during the night O'Connor, who had been drinking heavily, arose and, taking a pick drove it clean through Cook's brain, pinning his head down to the ground. He then grasped an axe and finished his bloody deed by hacking his victim in a horrible manner. The mutilated body was found next morning by some miners, who organized a posse and soon captured O'Connor. It is thought he committed the deed while crazy from drink. Cook represented a rich syndicate purchasing mines.

CASHIER PALMER CAUGHT.

With Some of the Booty—Whiteway Party Split Up.

Hamilton, Sept. 28.—W. B. Palmer, the defaulting teller of the Hamilton branch of the Bank of Commerce, was arrested this afternoon in a country hotel near Jordan, thirty miles east of this city. When arrested he had about $2,000 in $50 bills and gold, supposed to have been the cash he took from the desk before leaving the city.

St. John, N. B., Sept. 28.—Fine weather greeted the international exhibition to-day, the total attendance running a little over 17,000.

The general election this time will be fought out on straight party lines.

Halifax, N. S., Sept. 28.—Mrs. Peary, wife of the Arctic explorer, arrived here to-night to meet her husband, who is expected with his companions and the auxiliary Arctic expedition on the Red Cross liner Silvia, from St. Johns, Nfld. The steamer was due at six o'clock this evening but she may have been delayed by yesterday's storm.

St. Johns, Nfld., Sept. 28.—The Whiteway party is almost certain to split into two factions. One wants to shelve Sir William Whiteway until the Chief Justiceship becomes vacant, and then to elevate him to the bench. The other suggests the reconstruction of the party.

All of the board of revenue, recognizing the futility of hoping that the government would undertake public prosecutions, have begun an investigation of all the smuggling cases themselves. At a meeting of the Whiteway caucus to-night a stormy time is expected over the attitude of the Telegram, the newspaper organ of the government party, towards the government. This question is exciting widespread comment.

"I AM A CURED MAN."

Kidney Disease Vanquished by South American Kidney Cure—The Remedy Which Relieves in Six Hours.

Adam Soper, Burk's Falls, Ont.:" suffered much pain for months from kidney and bladder disease. I received skillful medical treatment and tried all kinds of medicines to no purpose; in fact, I did not obtain any relief until South American Kidney Cure was used. It seemed to fit my case exactly, giving me immediate relief. I have now used six bottles and can say positively that I am a cured man. I believe one bottle of the remedy will convince anyone of its great worth." Sold by Dean & Cryder man and Hall & Co.

HOPELESSLY IN THE DARK.

Durrant's Attorney's Extravagant Promises Fall to the Ground.

San Francisco, Sept. 28.—Another person who claims to have assisted in the murder of Blanche Lamont has been heard from. His story was contained in the following anonymous letter received at the mayor's office, handed later to the chief of police:

"Orange, N. J., Sept. 17.—To the Mayor of San Francisco: You are trying the rong man for murder. Durrant is an Innocent man. I with One other did the dead and I could come and pick the man Out I did not do the murdering but I helped cary the body I will say no more I am well known Out thare I say Once more Durrant is an inocent man."

This is looked upon as either a "fake," or the outcome of some disordered mind, if not a weird attempt at a joke.

If Theodore Durrant has anything tangible on which to base his denial of the charge that he murdered Blanche Lamont and Minnie Williams, his attorneys have so far failed to give satisfactory evidence of the fact. After two days devoted to the testimony of the defense, the trial was adjourned at noon to-day until Tuesay. In the meantime, however the defense had disclosed enough to satisfy the prosecution that Durrant's attorneys are groping in the dark in the hope that something may develop within the next few days to save the prisoner's life. The weakness of the defense is made more apparent at this time on account of the extravagant assertions that Durrant's attorneys have uniformly made since the trial begun. In view of these startling statements it was first believed that the defense might have a strong case held in reserve which would put to a severe test the case of the prosecution. In one day, however, the case of the defense crumbled and fell of its own weight, and to-day Durrant's alibi has not a leg on which to stand.

The apparent hopelessness of his case, however, produces no change in the demeanor of Durrant. Day after day he sits in the court room beside his father and mother, and listens to the evidence against him without sign of emotion. The stoicism of the prisoner is only surpassed by that of his mother. Mrs. Durrant seems to have no conception of the gravity of her son's position. Attired in waving plumes and a tailor made gown, such as a lady might wear at a matinee, she laughs and chats with friends while the evidence that the prosecution believes will hang her son is being put in against him. To the frequenters of the court room Mrs. Durrant's conduct is almost as unfathomable as that of her son. Durrant's father, however, looks careworn, and gives every evidence of a great strain on his mind.

IRISH MILITARY COMPANIES.

To Be Prepared for Action in the Hour of England's Peril.

Chicago, Sept. 28.—At yesterday's meeting of the Irish convention the following was submitted and met with instant approval at the hands of the convention: "Resolved, That this convention recommends the formation of military companies wherever practicable, in order to foster and preserve the military spirit of the Irish race and to be prepared for action in the hour of England's difficulty."

After the resolutions were disposed of J. J. O'Connell, of Chicago, presented the following as the report of the committee on organization and ways and means:

"The new movement organization shall be known by the style and title of the Irish National Alliance. It shall have for its object the securing of the independence of Ireland by any means within its power and consistent with the laws and usages of civilized nations. The qualifications for membership shall be good moral character, birth on Irish soil or descent from Irish parentage on the paternal or maternal side, or both, and the taking of the following pledge of honor: 'I hereby pledge my word of honor to aid by every means within my power, in conformity with the constitution and by-laws of the Irish National Alliance, in securing the independence of Ireland.' This organization shall be governed by a president, vice-president, treasurer, and an active council of nine members, who shall hold office for two years, or until their successors are elected and duly qualified. The president and treasurer shall be ex-officio members of the executive council, and where a tie may occur the president shall have the privilege of a casting vote. A two-thirds vote of the executive council shall be necessary to over-ride any motion or act of the president of the Irish National Alliance. The secretary shall be appointed by the president. All other officers shall be elected by the organization in regular convention. The president, vice-president and one member of the executive council, such member to be selected by the executive council, shall be trustees of the funds of the organization. State organizations shall be modeled on the national association. Authority to organize must come from the national executive council, and no other authority to organize shall be valid. The initiation fee shall be one dollar, and the dues fifty cents a quarter, payable in advance. Each local subdivision of the Irish National Alliance shall be known as a council and be designated by the number of the charter furnished by the national executive council on payment of their pro rata as called for in the convention. Each council shall transmit quarterly to the national treasurer 75 per cent. of all moneys received after the legitimate expenses are paid. The expenses of councils shall consist of hall rent and stationery."

The celerity and unanimity with which this plan of campaign was caught up by the delegates and stamped with a hearty vote of approval was a revelation. Delegate Fitzmaurice wanted the convention to go further and provide for the establishment of an Irish republic by electing a president, vice-president and parliament, all of which would constitute the government of the republic and would select such temporary location as circumstances might dictate. Mr. Fitzmaurice barely received respectful attention, and Chairman Finerty disposed of his suggestion with the remark that the only place for the establishment of a government for Ireland was on Irish soil.

The election of officers of the newly created Irish National Alliance was declared in order, and resulted as follow: President, William Lyman, New York; Vice-President, O'Neil Ryan, St. Louis; Treasurer, P. V. Fitzpatrick, Chicago; Executive Council, J. J. Donovan, Lowell, Mass.; Chris Gallagher, Minnesota; Martin Kelly, Tennessee; Captain Mangan, Wisconsin; J. Sheehy, San Francisco; J. M. Kennedy, Anaconda, Mont.; Thomas J. Dandon, Ohio; Thomas H. Greevy, Pennsylvania, and James Lawler, Texas.

The convention closed with the singing of a new Irish song composed by Mrs. Teresa Beatrice O'Hara, of Cleveland, called "God Bless Ireland," after which the delegates arose and sang "America" and "God Save Ireland."

MR. SCAIFE DECLINES.

To the Editor:—With reference to a letter appearing in your issue of yesterday from Captain Daniel Beck, stating that he had placed my name before the life members of the Puget Sound Institute for the Adult Blind for their approval as director and trustee for British Columbia, I beg to state that Captain Beck has acted in this matter without my knowledge or authority.

His proceeding meets with my entire disapproval, and he has taken an unwarrantable liberty with my name.

I have written to Captain Beck, declining to act in this capacity and informing him that it is not my practice to accept any responsibility or undertake any duties without full knowledge of their nature and extent.

I may add that I probably do no more than express the feelings of the subscribers to Captain Beck's fund when I say that I am surprised that no information has yet been afforded them with regard to the control and investment of the funds he has collected for a specific purpose in Victoria and elsewhere.

WEEK'S TRADE REVIEWED.

The Markets Have Been Busy, With a Fair Prospect of Continued Firmness.

Bradstreet's and Dun's Review of the Six Day's Dealings—Bank Clearances.

New York, Sept. 27.—The Evening Post's special London cablegram says: "The conclusion of the stock exchange settlement to-day caused a good demand for money, owing to the heavy settlement in mines. The markets were good, especially mines and Americans. In the latter there is a large investment business here. Reading fives are in favor of the reorganization rumors. Prices closed at near the best. The general outlook for speculation is still good, though the mines market is certainly too wild and suggests trouble, though probably not at present."

There was a further contraction of the volume of speculation to-day, but the professional character of the home market was as clearly marked as heretofore. Apprehension of further large gold exports in the near future was the chief influence in the trading and had an unsettling effect on the speculative mind. Money is relatively higher in Germany than in London or New York, and a large debit to Great Britain on various accounts enables London to transfer the burden of gold shipments to Germany to this country. This demand for currency at United States interior points reflects a freer movement of grain and cotton and this condition is expected to be soon more distinctly evidenced in the exchange market. The principal topic of interest to-day on the part of the traders was the improving tendency of the anthracite coal trade. Rumors of the near impending publication of the Reading reorganization plan were current, but lacked official confirmation. Railroad reports for August, including that of Reading, were uniform in showing increases in gross and net earnings. The market opened generally active and firm and soon developed a drooping tendency.

Bradstreet's report the week's total bank clearings in the Dominion as follow: Montreal, $10,778,314; decrease, 10.8. Toronto, $5,537,222; increase, 11.9. Halifax, $1,258,770; increase, 6.8. Winnipeg, $1,208,639; decrease, 10.6. Hamilton, $661,079; increase, 21. Totals, $19,263,524; decrease, 5.5.

R. C. Dun's review says: The full statement of about 2800 commercial failures for the third quarter of 1895 will be published next week, and will show liabilities of about $30,000,000, of which about $11,000,000 have been of manufacturing and $17,000,000 of trading concerns. The speculation in cotton has lifted the price ⅝ during the past week and quotations here are so much higher than at Liverpool, that free exports cannot be expected. It seems no longer possible to hope for a good crop, and Neill Bros. have issued a circular predicting a yield of only seven million bales. The accounts of injury and loss grow more dismal each week and while they may be somewhat exaggerated, the outlook is decidedly unfavorable. But for the extraordinary supplies carried over from last year, the manufacturer here and abroad would be in trouble. But prices of goods rise each week, adding to the profits of the mills, which on both sides of the ocean can use for some time to come old cotton bought at low prices. It is not clear how far the consumption will support the manufacturer at the present rate, and at present prices for goods, though the demand from dealers is naturally urgent, while the market for the raw material is constantly rising. There is still some chance of a strike in Fall River mills, though the rise in price will make it easier for the mills to grant some advance in wages. The wheat market has been excited without much discoverable reason, and the price has advanced over 5 cents for spot and two cents for December delivery.

It may be said that crop prospects abroad are not quite as favorable as they were a month ago and with a short supply, at best in this country, the market is liable to be unusually sensitive. Western receipts for the week have been 5,001,508 bushels, against 5,432,254 last year, and for the month 22,393,228 bushels against 21,923,383 last year. The exports from Atlantic ports, flour included, have been 1,887,501 bushels for the week against 2,420,580 last year, and for the past four weeks 524,621, against 8,772,318 bushels last year. Holders of corn have judiciously declined to sympathise with wheat to a great extent and the price is practically unchanged. Pork and hog products are all somewhat lower. Nothing is clear about the iron and steel manufacture, but some of the largest Pittsburg concerns, professing to have orders for many months ahead, are bidding for small contracts in eastern markets at $1 and $1.50 per ton less than the quoted rate. Some say that it is done to depress the market, and again it is thought that the object may be to buy material, but contracts have been made at the east for 250,000 tons of foreign ore to be used in Bessemer iron making at eastern furnaces, and the termination of the Marquette strike sets free about half a million tons more of Bessemer ore within the period of lake navigation.

There is also a halt in the advance of leather, no higher prices having been recorded this week, though hides are on the whole a shade stronger. The advance in wool at the London sales stimulated the speculation here, but prices are on the whole unchanged, and sales have been for the month 44,075,970 pounds, of which 10,566,370 were foreign, against 31,021,000 for the same week of 1892, of which 9,523,000 were foreign.

While the demand for dress goods continues fair, there is no discoverable improvement in men's woollens, and the importations continue very heavy. Failures for the week have been 216 for the United States against 235 last year, and 30 in Canada against 55 last year.

Bradstreet's says: The striking features of the week are the increased demand for money east and west, the maintenance of a widespread and active demand for iron and steel, a further upward movement of the price of raw cotton together with advance in quotations for wheat, flour and wool. Sudden changes in the weather, affecting a wide expanse of territory, made general trade irregular, but reports from those sections unfavorably affected are in part offset by the stimulation of the demand for certain staples in other portions of the country. General business at the south has shown an improvement at Memphis, Nashville, Atlanta and Birmingham; the demand for funds there is improving and all that appears needed is a freer movement of cotton. On the Pacific coast Seattle continues to ship general merchandise to Central America and to Alaska freely, and Tacoma reports the wholesale grocery business heavier than that of 1894, with the Alaska trade improving. General business at San Francisco is comparatively quiet. The canned fruit output of California will be about equal to that of last year. The advance in the price of wheat on reported damage to the crop in Argentine may or may not be the beginning of an upward movement, but accepted statistics concerning supplies of wheat in this country, if not discredited in the near future, may compel wheat prices to follow in the footsteps of these for iron. Telegrams for Bradstreet's from widely different points seem to indicate a general intention on the part of the grain producers to hold their wheat for higher prices. This refers to spring wheat territory tributary to Minneapolis and to the wheat country in Oregon. Wheat exports from both coasts of the United States and Montreal this week (wheat flour as wheat) are the largest since March, 3,151,000 bushels, against 2,538,000 bushels last week, 2,562,000 bushels in the week one year ago, and as compared with 3,189,000 bushels two years ago, and with 4,617,000 bushels three years ago.

In the province of Quebec general trade shows improvement since August. The demand is active for sugar, teas and canned goods, and with settled weather it is believed orders for dry goods will be improved. At Toronto wholesale business is comparatively quiet, but the prospects are for an active business. Advices from St. John, N. B., are that wholesale trade is quite satisfactory. The Nova Scotia apple crop will not be as large as last year, but the quality will be as good.

Bank clearings at Winnipeg, Hamilton, Toronto, Montreal and Halifax aggregate $19,263,000 this week, a falling off of about 4 per cent. from last week, and 2 per cent. as compared with the like week one year ago, but an increase of 10 per cent., as contrasted with the like period of 1893. There are 1236 mercantile failures reported from the Canadian Dominion during the past 9 months, 86 fewer than in the like period of last year. The reduction in the total volume of liabilities of failing traders in the Dominion is even more marked, 37 per cent., and is well distributed throughout the more thickly settled provinces.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

WAS A PATIENT

In St. Joseph's Hospital, Hamilton, Ont.

The Doctors Said a Surgical Operation Was Necessary to Effect a Cure.

THE LADY LEFT HOSPITAL AND DOCTORS.

She Uses Paine's Celery Compound and is Cured.

Another wonderful, almost miraculous, cure to report. As usual, the afflicted one is saved by the use of Paine's Celery Compound.

Mrs. Annie Saunders, the cured lady, lives in Bracondale, a pleasant suburb of Toronto. Her sufferings from a trouble common to many women, were terrible, and the wonder is that she now lives. To her, medical and hospital treatment proved of no avail. At a critical juncture, the doctors deemed an operation imperatively necessary.

Mrs. Saunders would not sanction the proposed operation; she decided to try a medicine that had cured thousands; she had faith in its woudrous powers to make her a new woman. Paine's Celery Compound was her chosen agent; she used it, and thanks Providence for the happy change effected. She writes as follows regarding her cure:—

"It is with much pleasure that I testify to the value of your wonderful Paine's Celery Compound. I was a great sufferer from severe attacks of neuralgia in the left ovary. At times the attacks were so acute that I thought I would lose my reason.

"Several doctors treated me, and I was a patient in St. Joseph's Hospital, Hamilton. I obtained no relief from medical treatment. The doctors said that unless I had the ovary taken away I could not be cured.

"Instead of submitting to the operation, I used Paine's Celery Compound, and I am thankful your valuable medicine cured me. I feel like a new woman, and I would like all sufferers to know just what this great medicine has done for me."

For Eighteen Years Unable to Lie Down in Bed—A Toronto Junction Citizen's Awful Experience With Heart Disease.

L. J. Law, Toronto Junction, Ont.: "I consider it my duty to give to the public my experience with Dr. Agnew's Cure for the Heart. I have been sorely troubled with heart disease and unable to lie down in bed for eighteen months owing to smothering spells and palpitation. Each night I would have to be propped up by pillows in order to keep from smothering. After treating with several medical men without benefit, I procured a bottle of the heart cure. After taking the first dose I retired and slept soundly until morning. I have used one bottle and have not taken any of the remedy for seven weeks, but the heart trouble has not reappeared. I consider it the greatest remedy in the world for heart disease." Sold by Dean & Cryderman and Hall & Co.

The Daily Times.

NOT A PARALLEL.

This rather puzzling statement appears in the News-Advertiser: "We have been examining every issue of the Victoria Times for the past ten days to see what explanation it gave of the unseating of Hon. Mr. Harty, one of Sir Oliver Mowat's colleagues, for corrupt practices in the last election for Kingston" It was unnecessary to keep so close a watch on the columns of the Times, when the general press dispatches furnished the explanation that Hon. Mr. Harty's agents violated the election law and thus caused the election to be voided. There may possibly be some further explanation in the well known fact that Kingston electors were freely debauched in the interest of the late Sir John A. Macdonald, which carries with it the probability that they expect to be bought up at every election. There is no defence or excuse for the corrupt acts of Mr. Harty's agents, but if the News-Advertiser hopes to find therein a parallel for the infamous system of corruption caried on by and for the Dominion government it must needs be disappointed. Nobody but a purblind partizan would think of comparing the Kingston affair with the systematic "milking" of public contracts and almost open theft of public money for the purpose of debauching whole counties in the Conservative interest. Neither the Dominion nor the Ontario Liberal party can boast of a Caron or a McGreevy.

AFRAID OF THE ELECTORS.

The Dominion franchise act is not an admirable piece of legislation, but its iniquities are surpassed by those of the special system of vote registration which the government devised for the Northwest Territories. Recently the legislature of the Northwest had a discussion on this system, when its injustice and crudeness were denounced in no measured terms. The following summary of the Northwest act, given by Joseph Martin, M. P. for Winnipeg, shows its character clearly: "Under the law as it stands an enumerator is appointed for each polling division. He commences to work as soon as the proclamation for the election is issued and completes the list eight or ten days before election day. He then posts up two written copies and within the next five days aplications to get on the list may be made to him. He may put them on or refuse to put them on just as he sees fit There is no appeal whatever from him. There is no printed list distributed, and in polling divisions, some of which are as large as counties in Ontario and Quebec, only two written copies are posted up. The enumerator has no office and the electors have no means of finding out where he is. In other words if the enumerators desire they may disfranchise every opponent of the government in their polling division and there is no posibility of more than a very small percentage of them getting their names on, and then those who apply may find on election day that their names have not been put on." There can be no doubt that Mr. Martin was right when he said this scheme of registration was devised for the purpose of enabling the government to manipulate the voters' lists to their own advantage. In previous elections the voting in the territories has been open; a circumstance which gave the government the advantage of using its great powers of intimidation and bribery. Then when it was decided to grant the people of the territories the right to use the ballot, like all other voters in the country, the government determined to retain an unfair advantage by giving themselves the power to "cook" the voters' lists. The scheme is set forth by Mr. Martin as follows:—

"The resolution passed by the assembly puts the matter in a very clear light. It is a deliberate attempt on the part of the Dominion government to steal all the seats in the Territories. They are well aware that public opinion there is dead against them, and they have taken this method of holding their own. Under the old law any man who was entitled to vote could get his name put on the voters' list on election day by taking the proper oath. This was allowed because there was no proper voters' list made. In 1894 Mr. Daly changed the law by repealing the clause which allowed this to be done, but he made no provision for having a proper voters' list made. When he introduced his act giving the ballot to the territories the question of voters' lists was discussed in the House of Commons, and it was agreed on all hands to leave the law as it was. When the bill got into the senate, Mr. Daly had the changes made there, and then sneaked them through the House of Commons without any explanation whatever, and no one in the House of Commons knew anything about the change except the government members from the territories. Last session the matter was brought up, and a determined effort made to have the law made as it was before, both in the House of Commons and in the Senate, but the government positively refused to change it."

A government that refuses to permit a fair system of vote registration shows plainly that it is afraid of an unhampered expression of opinion from the electors. The present Dominion government has good reason to entertain such fears.

Some Tory journals having referred in the customary laudatory and sycophantic way to Premier Bowell's long drive over the prairie, the Winnipeg Free Press is moved to comment as follows:

"It is just a quarter of a century since this country was taken over by the Dominion. During that time the politicians at Ottawa, recognizing its wonderful resources, capable of sustaining a large population, have been engaged in an effort to people it. It will scarcely be said that they are entitled to the credit of success when it is known that the premier has just driven 460 miles through a portion of it whose fertility has excited his admiration, without seeing a sign of human habitation other than the trail itself. Such a spectacle should have suggested very different reflections from those with which the premier has since been entertaining his friends, and should teach the country that our immigration methods are sadly lacking in efficiency."

Charles D. Rose, the new challenger for the America's cup, is a Canadian, a native of Montreal. His father, the late Sir John Rose, is well remembered as minister of finance in the first government after confederation and a prominent figure in the politics of young Canada. If the good wishes of his fellow countrymen can do anything for Mr Rose's success his yacht will surely score a victory.

GUARDED BY INSECTS.

A Tall Story About Gold and Insects in South America.

Gold in plenty may be found in the sands of the Volador river, a stream of moderate volume that falls from the snow line of the Sierra de Santa Marta in South America, but though the lowland region and river bed where the precious metal abounds in fabulous quantities are easily accessible, the mosquitos are so thick and terrible that all attempts to rifle the sands of their gold have so far failed.

Elisee Reclus, the celebrated French geographer, was the first to explore the plain about the Volador's mouth. He thought of establishing an agricultural colony in the fertile lowlands, but found the plague of insects so unbearable that he was forced to beat a retreat and abandon his project.

He was the discoverer of this wonderful stream, whose waters sweep over sands which are literally golden. He told the news to the French vice-consul at Rio Hacha, and this official obtained the concession of this Eldorado. The dangers he was to encounter he knew perfectly well. He took with him when he set out an ingeniously constructed tent of large dimensions.

For two days he tried to live under its shelter and watch the operations of his workmen who toiled in the stifling heat, clothed in thick garments, and protected by heavy boots, gloves and veils. At the end of the second day, however, both employer and employes gave up the struggle and retreated.

The next to try to wring fortune from these auriferous sands was an Italian, who obtained permission from the vice-consul. The Italian laughed at the idea of mosquitos driving any one away from a place where gold could be picked up almost by the handful. He started out with a party of six who shared with him his belief, and so they took along no special protection against the insects. They endured for less than half an hour the awful torture and then left. They found their way back to Rio Hacha with difficulty, for the eyes of five were so badly swollen that they were blind.

Yet there are human beings who can venture with impunity into this gold mine whose guardian demons are mosquitos, and these are some of the savage natives of the mountains from whose rocky steps the river falls.

These savages, who are mosquito proof, are rendered so by their bodies being covered with the scales of leprosy. Strange to say, the mosquitos will not touch them. But neither gold nor the fascination of civilization will tempt them to labor.

It is an old and true saying that one might as well try to get along without furs in the Arctic regions as without mosquito nets in the tropics. Mosquito nets seem to have been of little avail, however, in the instances related. The insects are said to have been unusually venomous and they come in such myriads that they have the appearance of a mist hanging over the wters of the river. The intense pain and action of the poison on the system speedily drive the strongest mad. —Pearson's Weekly.

ACCIDENTAL SHOOTING.

An Indian Accidentally Shot by a Sealer at Clayoquot.

Mr. Nicholson, a hunter on the schooner Iadetta, of Seattle, now lying in Clayoquot Sound, was a passenger to Victoria by the steamer Maude, which arrived last evening. Mr. Nicholson was the cause of an unfortunate accident which occurred at Clayoquot on Wednesday, whereby an Indian lost his life. Nicholson saw some deer tracks on the beach and followed them up. Just where the deer left the beach he heard a rustling in the bushes, and apparently without looking well to see what caused it, he brought up his rifle and fired three shots in quick succession. He then found that he had shot an Indian, who was gathering wood. The three bullets took effect, striking the unfortunate man in the head and chest. Nicholson gave himself up and was next morning brought before Mr. Dawley, J. P., at Clayoquot, who decided that the shooting was purely accidental. Mr. Nicholson, however, came to Victoria to lay the matter before the autuorities. Supt. Hussey did not think it was necessary to take any further steps in the case.

Captain Roberts, of the Maude, reports that the excitement over the Alberni mines remains unabated. New discoveries are being made daily, and claims are continually changing hands, one Victorian having invested for himself and other parties, about $10,000. Among those who returned from Alberni were: E. G. Tilton, W. Lorimer, J. Braden, M. P. P., and E. Braden. Other passengers who returned from the West Coast were: Dr. and Mrs. Barr, J. E. Sutton, R. Mason, J. Bays, W. S. Dawley, J. P., H. Langley, R. L. Drury, D. G. Smith, J. Foster, J. Johson, A. J. Bertram, O. C. Mathison, Mrs. Walker and daughter, W. Lambary and A. E. Talbot.

The schooner Iadetta, with 1050 skins, and the Katherine, with 500 skins, were spoken on the coast.

LEGAL INTELLIGENCE.

An application will be made to the Supreme Court on Monday for a writ of prohibition restraining Michael Phillips, the stipendiary magistrate at Fort Steele, East Kootenay, from taking any further steps in the Small Debts Court in an action brought by Bau Quong vs. Chung Yeep. Judgment was recovered last month for $93, $48 of the claim being for damages. The defendant contends that the act is ultra vires, inasmuch as it gives magistrates civil jurisdiction contrary to section 96 of the B. N. A. Act, which enacts that all judges shall be appointed by the Governor-General, and of course the appointment of magistrates here belongs to the Provincial government. A further ground of appeal is that the act does not apply to claims for damages. Mr. G. H. Barnard will make the application as the agent for Mr. Spragge, of Donald.

SAVING A VESSEL ON FIRE.

Water Let in on the Cargo Through Holes in the Hull.

One of the most brilliant pieces of ocean-wrecking seamanship on record, whereby the vessel, far out in the Atlantic with her cargo on fire, was saved and brought safely to port, was performed on board the American ship John Jay, commanded by Capt. Samuel Jackson.

When two weeks out the cargo was found to be on fire. The captain determined upon his course of action. He had the carpenter lowered over the rail and instructed him to bore several holes low down by the water line. The vessel was then put on the other tack so that she would be heeled over on the side where the holes had been made.

The water shot through these openings, and after the ship had been allowed to sink almost to the level of the deck, she was put around on the other tack again so that the holes came within two or three feet of the top of the water. Several of the sailors, with lines made fast under their arms and holding long wooden pegs and hammers, slid down along the side, steadying themselves by ropes that had been passed under the vessel and hauled taut, so that they came alongside of the holes. The tapering pins were thrust into the openings and knocked tight, then the vessel was put before the wind to get her on an even keel, and the crew turned to and pumped her out.—Western Rural.

LOCAL NEWS.

Gleanings of City and Provincial News in a Condensed Form.

—Menzies street, between Superior and Simcoe streets, has been closed to public traffic.

—On Thursday evening next a meeting will be held in Colquitz hall to discuss the advisability of starting a creamery in the district.

—A reward of $100 ha been offered for information as to the whereabouts of Samuel Ricketts, of Prospect Lake road, who has been missing for some time.

—H. M. S. Royal Arthur will not leave on her cruise to Vancouver and Comox until Monday, October 7th. The other ships will leave for New Westminster about the 5th.

—It is understood that Messrs. Joseph Hunter and Chas. A. Vernon, have acquired the business of the B. C. Pottery and Terra Cotta Company. They were both heavily interested in the original company.

—A meeting of the ladies' committee of management in connection with the women's department at the exhibition will be held on Monday afternoon at the City hall. Ladies who have not yet received their prizes can do so by applying to Mrs. W. Grant, No. 2 Work street.

—The choir of the Metropolitan Methodist church, under the leadership of Mr. Clement Rowlands, will be at the Gospel service of the Y. M. C. A. to-morrow afternoon at 4 o'clock. The Rev. J. P. Hicks will give an address on the subject: "Run, speak to this young man." All are welcome.

—The members of Triumph Lodge, Degree of Honor, held the second of a series of social dances in A. O. U. W. hall last evening. Richardson's orchestra supplied the music and arrangements were carried out by Mrs. W. Allen, Mrs. Wm. Cox, Mrs. Clarence Cox, Mrs. Meyer, Messrs. E. C. Smith and William Allen.

—Men from H. M. S. Royal Arthur provided the entertainment for last evening's meeting of the Sir William Wallace Society. The programme was a good one and well carried out. The following took part: Messrs. Andrews, Rolling, Channing, Eades, Stanley, Noakes, Ingham, Brown, Bell, Ford and Butler. The officers of the society tendered the entertainers a vote of thanks.

—The first anniversary of Peerless Lodge I. O. O. F., was celebrated last evening. The lodge is the youngest in the city, but is already one of the strongest, numerically. The programme was: Address, N. G., W. R. Macintosh; song, Mr. Pratt; recitation, Miss Nichols; song, Mr. Douglas; song, Mrs. Walt; recitation, Miss Strachan; song, Miss Steegar; song, Mr. E. W. Pratt. P. G. Hingley, of Peerless Lodge, also gave an address. Unfortunately the grand master could not be present.

—Samuel Sea, jr., is now fairly established at the stand formerly occupied by Henry Waller, on Douglas street, with a large and excellent stock of gents' furnishings, which is attracting great attetion from the best dressers in the city. Considerable delay occurred in receiving the stock, but now the last case has arrived, and everything is in apple-pie order. Such a choice stock of goods should, in accordance with the eternal fitness of things, have handsome and artistic surroundings. Mr. Sea paid the proper amount of attention to that requirement, and the interior of his commodious store presents a most pleasing appearance in its new arrangement.

—About forty milkmen gathered at Temperance hall last evening to discuss the proposed by-law now before the city council. J. B. Chandler was made chairman, and Charles King secretary. There was a general discussion by Messrs. McRae, Gibbs, Chandler, Clark and Holmes, and there was the strongest opposition to the scheme to tax outside dairymen. No exception was taken in particular to the inspection proposed. Ald. Cameron and Macmillan, who were present, were opposed to the tax, but believed very strongly in the milk inspection. Ald. Bragg was also opposed to the tax, and Ald. Partridge promised to fully investigate the matter before he voted on it. Messrs. King, McRae and Donnegan were appointed a committee to interview the council and Ald. Williams, father of the by-law.

—Manager Virtue of the Mount Baker Hotel has decided to keep the bar and billiard room open all winter. The hotel will be closed for guests about the end of October.

—The prizes won by the pupils of the North Ward school at the fair were presented yesterday by Trustee Glover. Seven diplomas and two money prizes were won by the pupils of the school.

—Lieut. Hornby and 22 men from H. M. S. Royal Arthur leave to-night for England. They go from here to Montreal over the C. P. R. and sail from there on the Parisian on October 5th.

—There were three new sewer connection cases in the police court this morning. One was dismissed, and the other two were remanded until late next week. A drunk, who was such legally for the first time, was convicted and discharged.

—The charges of assault against Alex Christiansen and Gus Hansen preferred by Joseph Labourne, were on for hearing for a time in the city police court yesterday afternoon. The taking of testimony was not concluded and the cases will be taken up again on Monday afternoon.

—The regular weekly meeting of Triumph lodge, I. O. G. T., was held in the Masonic hall, Esquimalt, on Thursday evening, when the members were again rewarded for their work by enrolling five new members. All visitors, especially strangers in the city, will receive a hearty welcome.

—A sealer named Olsen is being treated at St. Joseph's hospital for an injured shoulder. He was full and fell off the sidewalk on Store street. Olsen claimed that he had been robbed of $80, but the police after an investigation say that he did not have that amount, or any sum, to be robbed of.

—To-day is Yom Kippur, the day of atonement, and the most solemn of the Jewish year. It is the closing day of the penitential period which began ten days ago. It opened at 6 o'clock last evening and concludes at 6 o'clock this evening. It is being observed with due solemnity by the faithful in Victoria.

—At the land sale on the second day of October, 1895, to be held by George Byrnes, at his rooms, Yates street, the terms of sale as heretofore advertised are changed as follows, viz.: 10 per cent. on fall of hammer, 15 per cent. on completion of deeds, 25 per cent. on 2nd of October, 1896, 25 per cent., 1897, 25 per cent., 1898, with interest at 7 per cent. per annum on deferred payments.

—W. E. Holmes grand master of the I. O. O. F., will leave on Monday, October 7th, to institute a new Rebekah Lodge at Kamloops, and also to pay official visits to the following lodges: North Bend; Ashcroft, Kamloops, Vernon, Revelstoke, and Donald. At Donald a joint meeting will be held, the Golden brethren coming to meet the Grand Master there.

—H. M. S. Nymphe came out of the drydock this morning, and the steamship Straits of Dover is on her way from Tacoma to take her place. The latter is to be cleaned and painted. The bark Enoch Talbot has been launched from the Esquimalt Marine Railway and replaced by the bark Ladas. Altogether the drydock and the marine railway have been pretty well engaged of late.

—Ald. Macmillan has bulletined the following resolution: "That the city clerk be instructed to communicate with the owners of property situate on the Johnson street ravine, enclosing a proper form of agreement, conveying to the corporation of the city of Victoria the right of way for the proposed surface drain through the said property for the purpose of remedying effectually the condition of the said ravine."

—Miss Claude Hurst was arrested last night on complaint of Mrs. Thain, of Kane street, on a charge of having stolen a gold watch from her. It developed before court was held this morning that the Thain woman was playing baseball with the watch and Claude had taken it from her for safe keeping. Magistrate Macrae declined to permit Mrs. Thain to swear to the information, and gave her a severe lecture on her practice of trying to use the court for trivial troubles.

—The first of a series of Autumn Orchestral Chamber concerts will be held this evening at the Mount Baker Hotel, Oak Bay, by the band of H. M. S. Royal Arthur. A charge of ten cents will be made for chairs. The programme follows; Overture, "Esmeralda," Hermen; valse, "Amorten Tanunze," Gung'l; selection, "Pirates of Penzance," Sullivan; cornet solo, "The Better Land," Cowen; selection, "The Shop Girl," Caryll; intermezzo, "Reve du Bal," Eilenberg; descriptive fantasia, 'Voyage in a Troopship," by Miller; pizzicato, "Al Fresco," Zavertal; march, "Gigerl," Wagner; God Save the Queen.

—The president of the Victoria Wheelmen's Club, noted as an enthusiastic bicyclist, discoverer and advocate of new ideas in the wheeling line, had better look after his laurels. For some time, there has been numbered among Victoria's wheelmen, two Chinamen, but it was never thought that to one of them would fall the honor of introducing something new, all novelties having previously been claimed by the before-mentioned president. This morning one of the Chinese wheelmen passed proudly through Government street with a small baby cart attached to his wheel. Hereafter, John and his family will take their airing together, that is if the loaded wagon does not prove too heavy for the wheel.

The visit of the seniors to Portland is, therefore, an assured fact. They will leave here on the night of Thursday, October 10th, and will play the Vancouvers at Portland on the following Saturday.

—John Ross, Fred Wilson and Harry Mileson were arrested at 2 o'clock this morning by Detective Perdue, who intended to book all three for vagrancy. A revolver was found on Ross, however, and a charge to fit the case was made in his case. In police court this morning Ross got a month, while the other two cases went over until Monday. The arresting officer, Sergeant Walker and Constable Palmer have been watching the trio since their arrival here from Vancouver three days ago. They believe they are suspicious characters. Ross is said to have served a term at San Quentin, the California penitentiary.

—Three more sealers, the Katherine, Capt. Gould, Ocean Belle, Capt. Martin, and Mermaid, Capt. Whitely, with catches of 700, 1618 and 1832, respectively, arrived home to-day. The Katherine was reported from the west coast several days ago, and has no news of a special nature. The Belle and Mermaid also left Copper islands before some of the schooners already home a few days, notably the Umbrina and Geneva. They were each 24 days in coming down. Capt. Whitely reports the Sadie Turpel with 1270 skins. The Mermaid and Belle came up the straits together, and were towed in by the Carter.

—The headquarters companies of the B. C. B. G. A., headed by the battalion band, will march to the St. Andrew's Roman Catholic cathedral and attend service to-morrow morning. CORBETT IS ON CRUTCHES.

The Champion Reported an Entire Physical Wreck From too Fast Living.

Brady Denies the Report—Stallion Trotting Record by Joe Patchen.

THE RING.

CORBETT'S CONDITION.

New York, Sept. 28.—Many contradictory stories about Corbett's health have appeared in the New York papers recently, some being to the effect that the champion was a fit subject for the hospital, and others that he was fit to fight for a man's life or a king's ransom.

A gentleman who takes delight in seeing and reading about pugilistic encounters, and who is in touch with nearly all the eastern fighters, went to Corbett's training quarters yesterday and looked the man over. He reports that the disease which is now bothering Corbett, even to the extent of forcing him to let up on his training, is undeniably a blood disease, which is growing worse as the champion becomes older.

The ailment is one of several years' standing, and it is at the present time developing more rapidly and seriously on account of dissipation which Corbett has indulged in during his last two theatrical seasons.

To-day his features show marked evidences of the effect which his life has had upon his physical condition. That his nervous system is badly shattered is shown by the excitable temperament exhibited by him at the least annoyance. His face, which but a few years ago beamed with ambition and valor, now wears a dejected, worried and really painful expression. Great lines run upward from the corners of his mouth; his eyes are sunken and listless. Under the eyes are dark lines, and upon the forehead are wrinkles, showing the worried and nervous state of the pugilist.

When seen yesterday the change in his appearance was so perceptible that it could but excite pity. The quick, springy step had given way to a limp that was unquestionably painful, his shoulders were rounded and head inclined forward, so that his chin all but rested on the collar of his sweater. No one who could see him could truthfully say that Corbett of to-day is the Corbett who successfully knocked his way to the front rank of pugilism.

What Corbett really has to fear is the trouble which has broken out in his knee. During the past three months it has been so serious that no work of consequence could be done at his training quarters, he at times being compelled to use crutches, and upon one occasion to keep quiet altogether. Five expert physicians have at different times been called in attendance but could not render no immediate relief.

The affliction is in the nature of sores near the knee, which are accompanied by extensive swelling at the joint and excessive pain. But as their treatment would result in a sorer knee for the immediate present and a longer absence from his work at the training quarters, a thing above all others the pugilist wanted to avoid, the doctors were accordingly dismissed and Billy Newman, the well known handler of athletes, was engaged to bring the knee around so that training could be resumed and his preparation concluded for the championship battle. In so doing Corbett merely drove the disease back into his system.

Constant and vigorous rubbing, with frequent applications of a strong liniment, are necessary to keep the knee at anything like its normal size. Corbett, when the first rumors of his diseased knee were made, put out a strenuous denial and stated that he was in the best of condition, and as good as he ever was. The bad reports of his health, however, finally became so strongly backed with indisputable proof that Corbett and his manager, Brady, last week acknowledged the truth.

Corbett says that while his knee and feet have been a source of great trouble he is otherwise well and strong. He frankly admits that he is not in such condition as he would like to be, but gives as a reason a lack of training. He will not admit that he will be otherwise than in first class condition when he enters the ring with Fitzsimmons, but this, taking into consideration his present condition, would be nothing short of miraculous.

A DEAD SET.

Austin, Tex., Sept. 28.—Governor Culbertson's proclamation issued last night, convening the legislature for next Tuesday to enact a prize fight law, was a great surprise. There was some talk to-day that the Populist and political opponents of the governor may defeat the object, by making a law to go into effect in ninety days. It requires a two-thirds vote to give immediate effect. Representative Ham. Ward, a leading member of the house, to-day said that the legislature would undoubtedly pass a law to go into effect at once, and that it would make prize fighting a felony. He thinks the law will be passed within a week after the legislature meets.

CORBETT WILL FIGHT.

New York, Sept. 28.—Wm. A. Brady to-day issued a manifesto to the effect that Champion J. J. Corbett would not make any further objection to any arrangements made for his meeting at Dallas with Fitzsimmons, but would go to Texas directly after his exhibition next Monday and prepare for the fight. Mr. Brady said that Corbett would surely fight and would allow nothing upon his part to prevent the meeting. He is absolutely confident of Fitzsimmons' defeat, and gave it out unofficially that Corbett was in splendid condition, and would show up at the ringside as good as he has ever been under similar circumstances.

EXHIBITION GAMES.

At Caledonia Grounds on Saturday afternoon next, the Nanaimo and Capital lacrosse teams will play an exhibition game under the auspices of the Ladies' Auxiliary of the Jubilee Hospital. These two teams played the hardest games of the season. The Nanaimos defeated the Capitals in a game in this city and at Nanaimo the match was 3 to 2 in favor of the Capitals.

A senior team will be obtained to play an exhibition game at Portland against Vancouver if a guarantee of expenses is secured.

YACHTING.

Oyster Bay, L. I., Sept. 28.—The race committee of the Sewanahaka Corinthian Yacht Club decided this morning to overrule the protest filed yesterday by J. Brand, owner of the halfrater Spruce IV., against the Vanadwynn, in the fourth race of their match for the international cup.

A SNUB FOR ROSE.

London, Sept. 28.—The Field this morning says: Despite the expressed satisfaction of the New York Yacht Club with the challenge for the America's cup by Mr. Charles Rose, it cannot be regarded as representing British yachting. The name "Distant Shore" is quite Indian in its suggestiveness, and might very well mean "Distant Yacht" or "Forlorn Hope."

ATHLETICS.

CONSOLATION.

London, Sept. 28.—Commenting upon the athletic contest between the London Athletic Club and the New York Athletic club last Saturday the Field says: On the whole a calm review does not bring dismay. There is not much to regret of being beaten five times in record times.

THE TURF.

PATCHEN WINS.

Sioux City, Iowa, Sept. 27.—The special match race at the fair grounds today between Joe Patchen and John R. Gentry was won by Patchen. The event was two heats out of three and Patchen won the second and third. In the second heat he equalled his record, 2:04.

THE WHEEL.

A CLIP OFF.

In the half mile bicycle race on Saturday James Deeming succeeded in clipping 5 seconds off the provincial record of 1.12 2-5 made by Guy Brown, of Spokane, at the Oak Bay track, Victoria, on June 29. This would appear to prove the Wellington track the speediest in the Province.—The Enterprise.

AMERICAN BANK IN CHINA.

Its Establishment Recommended—Korean Minister Dies of Cholera.

Washington, D. C., Sept. 28.—The establishment of an American bank at Shanghai, China, is strongly urged by Consul General Jernigan in a report to the state department.

A cablegram received by the state department to-day, announced the death in Korea of Yo Sung Su, the Korean minister to the United States. The minister has been absent from his post for nearly a year, having returned to Korea at the beginning of the troubles in that country which led to the late war. He died of cholera.

Sault Ste. Marie, Mich., Sept. 28.—No lives were lost yesterday in the steamboat collision between the Hopkins and the Vanderbilt. The Hopkins was struck near the bow and was cut in two as far as the windlass. She rests on a clay bottom. The collision was caused by the steamer Spokane passing the Hopkins, causing her to sheer directly across the bow of the Vanderbilt. The sunken boat was commanded by Capt. H. A. Lion. She had on board a cargo of ore for South Chicago.

Lima, Peru., Sept. 28.—After an important debate in the Senate to-day the Hualgayoc concession was sent back to the committee of public works, in order to amend it with a provision for protection of the national and the concessionaire's interests.

Hazelton, Pa., Sept. 27.—A water famine prevails here. It reached a climax last night when the trolley cars were compelled to stop running owing to there not being enough water obtainable to run the dynamos. Over 10,000 men are idle, on account of the shutting down of various industries.

NANAIMO.

Free Press.

The stage brought in last night among other passengers Mr. C. Dempsey, who is employed on the Simpson claims. Mr. Dempsey expects to remain in town a week, after which he will return to Alberni. Bainbridge's hydraulic claims, he stated, are making a good showing. A dam has been completed across China creek and in about a month the claims will be ready for sluicing and work will be continued all winter. Both on the above and on the claims of the Hydraulic Mining Company quite a gang of men is employed. Six or seven men are working on the Constance claims and a prospecting shaft is being sunk. Captain Wolley and Hon. D. W. Higgins are still at the mines. Both are interested in claims on Granite creek.

Mr. J. Hepburn, who also came in on the Alberni stage, was very uncommunicative, but it is, nevertheless, understood that he has had some claims staked on Mineral creek, a fact which seems to argue that his opinion of the country is not altogether unfavorable.

Generally speaking, Mr. Dempsey substantiated what has already been said with respect to the absence of active development work. This is attributable in a very great measure to the condition of a majority of the prospectors, who are nearly always poor men, comparatively speaking, and therefore, unable to do much more than "scratch the ground." A change, however, is expected in the near future, influential men of capital are beginning to take a real interest in the country, and with their advent an era of profitable activity in all directions is almost a foregone conclusion.

Mr. F. T. Child, foreman on the Hydraulic Mining Co.'s Alberni claims, came in on the stage last night and returned to Victoria this morning. Prospecting work on the company's five claims, he stated, is being actively carried on and the construction of a dam has been began on the lower one. Mr. Child had a fine sample of gold dust with him, which certainly looked encouraging.

MIDWAY.

Midway Advance.

Mr. Boushart has abandoned the Alto, in Providence camp, and the claim has been re-located by Mr. Wood, of Armstrong.

A 300 foot shaft is to be sunk on the Stemwinder, and three shifts of men are to be kept constantly employed on this work until its completion.

It is reported that a deposit of firebrick clay has been discovered near Midway. This should prove of great value in the event of the establishment of works in this district.

Under the direction of Colonel Boyle the Butte and Boston company are steadily prosecuting the work of development on the Cariboo.

The shaft which some time ago was started at the junction of the two claims, the Cariboo and the Amelia, is now down a depth of some 240 feet and drifting has been done to a distance of sixty feet in a southerly direction, and to the north some twenty feet, and upon which drift they are now working. Recently some two hundred and fifty tons of ore which had come out of the new shaft was run through the mill, and the assurance was given by the parties in charge that throughout the mine's history no richer rock had been crushed, and no better return return received than from the clean-up made a few days ago. Although the exact figures could not be given owing to the fact that the amalgam had not been retorted, it was generally understood the ore would average about $40 to the ton. So well pleased seemed those in charge with the result, the hope is entertained and freely indulged in, that this will have the effect of closing the deal between the Butte and Boston company and the owners—the Cariboo Mining Company.

T. Elliott states that Messrs. Bingham and Lawson, who are interested in the successful working of the Crawford Mill, intend spending $15,000 on the erection of a mill and the development of his property at Fairview, known as the Smuggler claim. The latest development work has disclosed a valuable body of free-milling ore, which the Crawford Mill people consider as peculiarly adapted to their method of treatment. The mill is now on the way and will be erected and will start working immediately on arrival, as there is quite a body of ore on the dump at present ready for crushing.

UNION.

Union, Sept. 27.—The Rev. Mr. McIntyre, pastor of the Presbyterian church here, preaches his farewell sermon on Sunday next. He leaves for Edinburgh to pursue a further course of study.

D. R. O'Hanley and W. Chedey are erecting a half way house between Comox and Union. D. McDonald is the contractor.

Coroner Abrams held an inquest to decide the cause of death of John Rowe, killed in the mines a short time ago. The jury brought in a verdict to the effect that the deceased came to his death because of his negligence in not making his place secure, and because of the negligence of the Union Colliery Company in not providing timbers for the purpose of making the place safe. Mine Inspector A. Dick, of Nanaimo, was present at the inquest.

Several ships have been at Comox wharf during the last week loading coal. The San Mateo left to-day with a full cargo for the San Francisco market.

J. McKim, sr., was the victim of what might have been a serious accident last Tuesday. While driving in the dark from Courtenay his wagon struck a log, throwing him out. Mr. McKim lay stunned for some time when he was discovered by J. Mateer and taken home. Happily he is now able to be at his store, very little the worse for his mishap.

Two local nimrods, armed with repeating rifles, breech-loading shot guns and the etceterns necessary for a hunting trip, started out for Oyster river, determined to slay everything in the shape of game that did not conflict with the Game Act. After reaching the river a bear was seen slowly descending the hill side. One of the hunters fired, but without effect, having failed to supply the magazine of his rifle with cartridges. The other fired and slightly wounded bruin, but, owing to a cartridge catching he was unable to get a second shot. Mr. Bruin charged and the two hunters took refuge in the chilly waters of Oyster river. The longer of the two succeeded in getting safely across the river, but the other had more difficulty, losing his rifle in the attempt. They have returned to Union none the worse for their adventure, being wiser, if not sadder, because of their experience.

VERNON.

(Vernon News.)

The weather for the past few days has been rainy and some wheat in the Spallumcheen district may suffer from the wet, though the quantity still unstacked is fortunately not large.

The Coldstream ranch made their first shipment of this season's hops on Tuesday, a car load being forwarded to the Toronto market. On the same day a car of barley was shipped to London, England, from the ranch.

Mr. Al Marsh, who for several years has been driving in a tunnel to strike bed rock on a creek back of Monashee mountain, was in town this week and thinks he will soon reach the end of his task. He is now in several hundred feet.

That colors of gold can be obtained in almost any of the streams of this district is a well known fact, and though placer mining has not proved a very remunerative occupation of late years, there are many who firmly believe that richer placer discoveries will yet be discovered. An instance that gives color to this belief occurred recently at Pleasant Valley, when Mrs. John Thompson discovered in the "crops" of some barnyard fowl which had been killed for household use, several small nuggets of pure gold. The chickens had access to a gravel cut near the railway and it is thought that they picked up the precious metal while prospecting there for a "grub stake."

Col. Forrester, of Sicamous, has been confined to his bed since last Thursday by a serious illness. On the morning of that day he was stricken down by paralysis, which affected one side of his body. Medical assistance was promptly obtained, and all that careful attention could do is being done to relieve his condition. The latest reports, we are pleased to state, are of an encouraging nature, and it is hoped that he will be able to get around before many days.

It is only a few weeks since the scheme was first advocated at a farmers' meeting held in Armstrong, and already the project has been placed on a footing that makes its success beyond reasonable doubt. The farmers have taken hold of the scheme in a surprisingly unanimous manner, and the municipality of Spallumcheen will shortly vote on a by-law granting assistance to the extent of $20,000. At a meeting of the shareholders at Armstrong it was decided that Armstrong should be the chief place of business of the company; that the company should be limited liability, with a capital of $60,000, divided into 600 shares of $100 each, operated on the co-operative system; and that the mill should have a capacity of 100 barrels per diem. The provisional directors were then nominated and Messrs. Mark Hill, D. Rabbitt, D. Matheson, D. O'Keefe and D. Graham were elected unanimously. The directors were requested to immediately proceed with the erection and construction of the mill buildings, etc. A call of $5 per share was made due and payable on October 1st next, and as quite a number wished to pay at once, Mr. Donald Graham was appointed treasurer pro tem.

OVER THIRTY KNOTS.

Torpedo Boat Destroyer Built for the Russian Government.

The new torpedo-boat destroyer Sokol was launched recently from the works of Messrs. Yarrow & Company, of Poplar. This vessel has been built for the Russian imperial government. She is 190 feet long by 18 feet 6 inches beam, and is the first torpedo-boat destroyer in which nickel steel has been adopted as the material of construction. This class of steel has a strength exceeding that of ordinary mild steel to the extent of 30 per cent. She is fitted with twin screw triple expansion engines, of 4,000 horse-power, and the speed guaranteed on a three hours' trial is twenty-nine knots. The steam is supplied by eight of Yarrow's patent water-tube boilers with straight tubes. The armament of the Sokol is practically the same as that fitted in similar vessels in the British navy. As is customary at Messrs. Yarrow's works, there was no ceremony at the time of launching the vessel. The Sokol was launched with all the machinery on board, and the fires alight and steam up in four boilers. On the following day the first preliminary trial took place, and the results obtained are of more than ordinary interest on account of the remarkable speed secured. The following details will be read with interest:—Steam pressure, 164; vacuum, 22; revolutions per minute, 410; time, 2 min. 6 sec.; speed, knots, 28.57; steam pressure, 165; vacuum, 22; revolutions per minute, 426; time, 1 minute 52 1-2 sec.; speed, knots, 32; mean speed in knots per hour, 30.285. The trial took place at the mouth of the Thames.

A FAVORITE PRESCRIPTION.

HOW IT CURED MRS. SOMERVILLE, OF BRANTFORD.

Her Case Had Baffled Ten Years of Treatment—The Trouble Brought on by an Attack of Typhoid Fever—She is Again Enjoying Good Health.

That Dr. Williams' Pink Pills are a favorite medicine in Brantford and vicinity will be readily borne out by the local druggists, and that much suffering has been alleviated by the use of this wonderful healer, is amply shown by the number of strong statements in favor of Pink Pills from this section. And yet the number of cases published is small in comparison with the total number that have found benefit from the use of this great blood builder and nerve restorer. It is true that Pink Pills are used in many cases to tone up the system, enrich the blood and stimulate the nerves where no serious illness exists; but it is equally true that in many cases in which they have been used, other medicines have failed, and the result achieved by Pink Pills may very truly be characterized as marvellous. The editor of the Canadian Nationalist came across just such a case recently. It is that of Mrs. S. Somerville, a well known and highly respected resident of this city. Mrs. Somerville does not seek notoriety, but is willing that a statement of what Pink Pills has done for her shall be made public in the hope that some other sufferer may be benefited thereby. "My illness at first," said Mrs. Somerville, "was a serious attack of typhoid fever. Although I recovered from the fever it left its effects that have caused me many years of misery. The doctor said that my blood had become impregnated with poison and that it would take a long time to eradicate it. The trouble seemed to have its chief seat in my limbs, which caused me a great deal of pain. For about ten years I continued doctoring, not continually, but at times, and I tried many remedies without permanent results. This went on until the end of '93, when I became so much crippled up that I dispaired of getting relief. I had read much of the remarkable cures through the use of Dr. Williams' Pink Pills and became interested in them. One day I asked my physician if I might try them. He gave his permission and I began using them. By the time the third box was finished I found myself very much improved—in fact, the pains had entirely left me, and I was growing healthier and more fleshy. I continued using the pills until I had taken six boxes more, when I felt that I was entirely cured, and was enjoying better health than I had done for years. I am satisfied that to Dr. Williams' Pink Pills I owe my recovery, and have implicit confidence in their curative power, and shall continue to recommend them to other sufferers.

Dr. Williams' Pink Pills for Pale People are not a patent medicine, but are a long tried prescription acting upon the blood and nerves. They are of great value as a tonic during recovery from acute diseases, such as fevers, etc., building up the blood and system, preventing the often disastrous after effects of such troubles. Sold by all dealers or sent post paid at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Refuse all imitations and substitutes.

A WELL KNOWN CATHOLIC PRIEST.

Of Hamilton, Rev. Father John J. Hinchey, Pastor of St. Joseph's Church, Hamilton, Bears Testimony to the Undisputed Worth of Dr. Agnew's Catarrhal Powder.

In the person of Rev. John J. Hinchey of St. Joseph's (R. C.) church, Hamilton, is one who does the highest credit to the self-sacrificing work in which he is engaged. His kindly heart constantly prompts him to deeds of love and goodness, and in the city of Hamilton all who know him are ready to bear testimony to his high character and active generosity. As result of neglect, thinking more of others than himself, he has been a sufferer from cold in the head and its almost certain associate, catarrh. Recently he made use of Dr. Agnew's Catarrhal Powder, and has found in it so great relief that he deems it a pleasure to tell others of the good it has done him.

One short puff of the breath through the blower supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this powder over the surface of the nasal passages. Painless and delightful to use, it relieves in ten minutes and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsilitis, and Deafness. 60 cents. Sample bottle and blower sent on receipt of two 3 cent stamps. S. G. Detchon, 44 Church street, Toronto. Sold by Dean & Cryderman and Hall & Co.

—The handsome residence of Archer Martin on Regent's Park heights has been completed and occupied. It is a creditable addition to the handsome residences of the city. The site, commanding, as it does the best view in the city, was an admirable one, and for it Architect A. C. Ewart designed a structure which is greatly admired. The house was so placed primarily as to take advantage of the view from the principal apartments. The rooms are large, well lighted and well aired, there has been no waste of space, and every convenience known to modern building has been put in. The building has been completed in good season and Mr. Martin has been more than pleased with the work done for him.

—The steamer City of Kingston carried away 2500 cases of salmon last night for shipment east over the Northern Pacific. Part of it goes to Eastern Canada and part to London, England.

—It is expected that quite a crowd of Victorians will take advantage of the cheap rates ,and go to Portland on Elk's day at the Exposition. There have been a large number of inquiries, and a good sale of tickets will very likely result.

ROYAL Baking Powder. Highest of all in leavening strength.—U. S. Government Report.

—Reformed Episcopal church was crowded this afternoon at the funeral of the late Charles Hayward, jr., showing the esteem in which deceased was held by the many Victorians who knew him. Many of those present were young men, whose companion he had been in boyhood. The flowers sent by the sympathyzing friends were numerous and beautiful, including many handsome wreaths and crosses. The funeral took place at 2:30 from the residence of the parents, Vancouver street, and shortly afterwards from the Reformed Episcopal church. Rt. Rev. Bishop Cridge conducted the funeral services at the church and there was also a choral service by the choir. The members of the local lodges A. F. & A. M., attended in a body. The pallbearers were: H. Ella, J. E. Wilson, C. E. Jones, F. Bennett, E. E. Wootton, D. McConnan, G. Jay, S. Reid, E. Thain, and Geo. J. Harvey.

CANCER ON THE LIP

CURED BY

AYER'S Sarsaparilla

"I consulted doctors who prescribed for me, but to no purpose. I suffered in agony seven long years. Finally, I began taking Ayer's Sarsaparilla. In a week or two I noticed a decided improvement. Encouraged by this result, I persevered, until in a month or so the sore began to heal, and, after using the Sarsaparilla for six months, the last trace of the cancer disappeared."—JAMES E. NICHOLSON, Florenceville, N. B.
